

Changi Airport Group Singapore Pte Ltd

ENVIRONMENTAL POLICY

Singapore Changi Airport is a key contributor to Singapore's economy, and Changi Airport Group (CAG) plays an integral role in maintaining Singapore's position as a global airhub. In striving to meet the expectations of its passengers and public, CAG also recognises its responsibility in ensuring sustainable development.

In operating and developing Singapore Changi Airport, CAG will:

- Commit to carry out its activities in an environmentally responsible manner, to prevent pollution to the local community, to protect and maintain a sustainable environment
- Commit to continual improvement of the environmental management system and enhance environmental performance by setting environmental targets and implementing action plans to address significant environmental aspects
- Comply with all applicable legal and other requirements to which it subscribes which relate to its environmental aspects
- Provide senior management support and resources to enable policy objectives to be met.
